Solar Energy of Illinois  
2504 N. 74<sup>th</sup> Ave  
Elmwood Park, IL 60707

To Whom It May Concern:

I would like to recommend Solar Energy of Illinois. They installed a 2 kW system at my residence. I was looking for a system that was expandable and also dealt with some shading issues. We designed a micro-inverter system that is working nicely. Solar Energy of Illinois used high quality electrical components, assisted with state and utility paperwork, pulled permits and followed the plan with no additional expenses.

If you are planning to have a solar energy system installed, you should strongly consider using Solar Energy of Illinois.

Best Regards,

Darryl W. Hrdina
